

Nautilus Marine Grease

Heavy duty grease for general marine applications

Nautilus Marine Grease is a multipurpose, lead-free, extreme-pressure grease ideally suited for universal use on boats and trailers.

Applications

- General purpose grease applications
- Trailer wheel bearings

Performance Features

- **Outstanding mechanical stability**
Maintains its excellent lubrication properties even when subjected to severe vibration. Prevents grease breakdown and leakage
- **Excellent anti-wear & service life**
Long bearing life
- **Good adhesive properties**
In conditions of heavy load and shock.
- **Excellent water wash-out resistance**
Prevents corrosion. An essential quality for use in wet environments
- **Good oil separation**
Provides effective lubrication over long periods
- **Safe handling**
Product does not require labelling

Identification

Nautilus Marine Grease is dyed blue to provide visual check of application.

Health & Safety

Nautilus Marine Grease is unlikely to present any significant health or safety hazard when properly used in the recommended application, and good standards of industrial and personal hygiene are maintained.

For further guidance on Product Health & Safety refer to the appropriate Shell Product Safety Data Sheet.

Typical Physical Characteristics

Nautilus Marine Grease	
NLGI Consistency	2
Soap Type	Lithium/ Calcium
Base Oil (type)	Mineral Oil
Kinematic Viscosity @ 40°C cSt 100°C cSt (IP 71)	160 15.5
Dropping Point (IP 132) °C	184

These characteristics are typical of current production. Whilst future production will conform to Shell's specification, variations in these characteristics may occur.

Advice

Advice on applications not covered in this leaflet may be obtained from your Shell Representative.
